

**Conclusion**

Applicant respectfully requests that the indicated amendments be entered and favorably considered.

The present amendments were necessitated by an apparently new practice where the Patent Office requested, after allowance of the Application, that the Applicant furnish a computer diskette containing the computer program listing of APPENDIX D, even though the same program was previously printed from the application as filed in U.S. Patent 5,680,633.

Respectfully submitted,

Date: April 3, 2002
